

Stonington
Cemetery

New burial areas are available for purchase. We are also offering half-lots that are 4' x 5'. A single full 8' x 10' plot will accommodate one full burial and the burial of two cremated remains or the burial of three cremated remains with no full burial. The half-lots will accommodate the burial of two cremated remains. Please note that the maximum number of burials of cremated remains that are permitted in plots with existing burials may not be possible in all locations. There are limits to the number and size of markers depending on location and plot size. These guidelines are in effect as of November 1, 2018.
